Grower Referendum On Proposal Set For May 31

Washington, Feb. 6.—The agricultural adjustment administration has tentatively set May 31 as the date for a grower referendum on a proposal to invoke strike marketing quotas on the 1941 wheat crop.

Plans for such a referendum are being made on the basis of reports that the 1941 harvest and surplus now being marketed will be "excessive," supply within the meaning of the 1938 farm act.

The legislation makes a referendum necessary when supplies become excessive.

Quotas would have to be approved by two-thirds of the producers voting. If approved, each producer would be limited to the sale or use as feed of wheat harvested from his AAA acreage allotment for 1941. Farmers selling wheat in excess of the amount would be subject to a penalty tax of 15 cents a bushel on the excess.

AAA officials say that the supply of wheat might be the largest in years. They estimate that there will be a surplus of about 35,000,000 bushels when the new crop starts moving to market. Present prospects, they say, point to a 1941 crop of between 335,000,000 and 350,000,000 bushels.

Only a sharp reversal in crop prospects or a change in the farm act, officials say, would eliminate a quota referendum. This would be the first time that quotas were proposed for wheat.

The world situation is such, officials said, that without the support of government loans, farm prices for wheat would tumble to around 25 or 30 cents a bushel.

Not all wheat farmers would be subject to quotas. The law exempts farms on which the normal production of the acreage planted to wheat is less than 200 bushels.

Washington, Feb. 5.—Congressional questions for specific appropriations and appropriations in the bill have been strictly a publicity show. While the bill is an important step to report to serious consideration of what the bill means and what it will do, has been contributed by either side.

The committee hearings, which developed this time into a contest of presenting big names, rather than enlightenment, got underway at the administration of the bill. The committee hearings, which developed this time into a contest of presenting big names, rather than enlightenment, got underway at the administration of the bill.

At no time has the administration offered a justification for this particular legislation as against any other. The only convincing testimony on the subject was by Mr. C. B. Smith, who said the bill was a measure to control the distribution of the bill.

The opposition has been squirming and squawking some because it cannot find out what the bill is all about. Many protests against the bill have been made by Mr. C. B. Smith, who said the bill was a measure to control the distribution of the bill.

KAYS, BRADLEY FIVE SEEK TO STRETCH WIN STREAKS

Miller Certain He Won't Get Offer From ND

Cleveland, Feb. 6.—Don Miller would be glad to carry on for the famed "Four Horsemen" in the Notre Dame football coaching job. But he calmly added today, he knows he won't get it.

"I wouldn't have a chance," he declared the 38-year-old Cleveland athlete. "They wouldn't even consider me. They want someone who has been active in football in the past."

That makes him the only member of the 1927-34 Notre Dame quartet, not directly involved in South Bend's current employment situation.

Fullback Elmer Layden started things by quitting the Notre Dame post, paying something like \$10,000, to become commissioner of the National football league at double that annual salary.

Quarterback Harry Stuhldreher, Wisconsin's head coach, is considered a leading candidate for the spot. So is Left Halfback Jimmy Crowley, top man at Fordham. But right Halfback Miller, who does a little tutoring, too, counted himself out.

Donald Charles Miller set up after graduation in a Cleveland law practice with some of his brothers. But he didn't forget football.

He was backfield coach at Georgia Tech for four years starting in 1925. The last of his four years at Georgia Tech the team went to the Rose Bowl.

Mentored at Ohio

The next four years were spent as backfield mentor at Ohio State. When Miller's salary was cut in half for the 1932 season, he quit.

Nipples for head coaching jobs came from Alabama (\$10,000 per for three years), North Carolina State (\$8,000) and Auburn (\$6,000). "But I turned them all down."

He had known the law business was going to pot in the last few years. "I had taken one of those jobs," said Miller.
